VISHNUPRIYA M V

Thrissur, Kerala, India | v74641001@gmail.com
github.com/vishnupriya759285 | linkedin.com/in/vishnupriya-m-v

Computer Science Engineering student specializing in AI Automation, Frontend Development, and E-Commerce Workflows. Skilled in Python, JavaScript, React.js, Flutter, LLM Integration, AI Agents, Chatbot Development, REST APIs, and Data-Driven Problem Solving.

EDUCATION

Bachelor of Technology in Computer Science Engineering (2024 - 2028)
Sahrdaya College of Engineering and Technology, Thrissur, Kerala | ***CGPA: 9.66 / 10***
Minor: Bioinformatics | *Honours: Mathematics for Machine Learning* | *Elective: Web Technologies*

INTERNSHIP EXPERIENCE

E-Commerce Intern - AI Automation and Operations (Jul 2026 - Present)
Karv Devices Private Limited (Pamjoy E-Commerce Program), Online Internship

- Build AI agents, chatbots, and automated workflows using n8n, Make, Zapier, and LLMs (GPT, Claude, Gemini) for customer support, email marketing, and business operations.
- Automate product listings, SEO metadata, and Shopify/CRM integrations, and generate AI-driven sales reports and analytics to support revenue growth.

Intern - AI and Machine Learning / Data Science and Analytics (Jun 2026 - Jul 2026)
InternPe, Remote Internship

- Applied Python-based machine learning and data analysis techniques to real-world tasks across AI/ML and Data Science domains.

AI Automation and Intelligent Solutions Intern (Jun 2026)
AICTE | IBM SkillsBuild (BharatCares), Self-paced Virtual Internship

- Applied core AI/ML concepts to real-world automation use cases as part of a structured AICTE-IBM SkillsBuild program.

TECHNICAL SKILLS

- **AI and Automation:** LLM Integration (GPT, Claude, Gemini), AI Agents, Chatbot Development, n8n, Make, Zapier, Prompt Engineering
- **Frontend Development:** React.js, Flutter, HTML5, CSS3, Responsive Design, Component-based Architecture
- **Programming Languages:** Python, JavaScript, Dart, Java, C
- **E-Commerce:** Shopify, CRM Integration, Inventory and Shipping Systems, SEO Metadata Automation
- **UI/UX Design:** Figma, Wireframing, Prototyping, User Research, Design Systems, Interaction Design
- **Backend Development:** Flask, REST APIs, JWT Authentication, Encryption, Object-Oriented Programming (OOP)
- **Database:** PostgreSQL (IIT Bombay certified, 97.50%)
- **Cloud Computing:** AWS Cloud Practitioner Essentials
- **Testing and QA:** Selenium (Automated Web Testing)
- **Developer Tools:** Git, GitHub, VS Code, Android Studio, Chrome DevTools

PROJECTS

Bus Tracking App (*Flutter, Firebase, Google Maps API, GPS, Dart*)

- Developed a real-time bus tracking app using Flutter and GPS, letting users monitor live bus locations on an interactive Google Maps interface.
- Implemented Firebase Authentication and Firestore for secure, real-time sync of location and route data, with ETA tracking and route visualization improving the commuting experience.

Smart Rural Area Issue Management System (*First Prize - TinkHerHack 4.0 Hackathon | Full-Stack Development*)

- Designed and deployed a full-stack web application to manage civic issues, events, public notices, and government welfare schemes across rural panchayats in Kerala.
- Enabled citizens to report infrastructure problems, register for events via QR codes, and access pension/welfare scheme information from a single platform.
- Won First Prize at TinkHerHack 4.0, competing against teams statewide across Kerala.

ETLAB+ Smart Academic Advisor Platform (*Best College Project Award* | *Java, REST APIs, JWT Authentication*)

- Architected a secure academic advisor system with JWT-based authentication and encrypted ETLab token management; received Best College Project Award.
- Implemented RESTful API endpoints for seamless backend integration and robust data security.
- Applied object-oriented programming (OOP) principles for scalable, maintainable code architecture.

AI Buddy System to Reduce University Dropouts (*Flask, Python, NLP*)

- Developed a full-stack web app to support at-risk students with AI-powered chat assistance and early intervention mechanisms.
- Built responsive frontend UI and integrated NLP interaction flows for personalised student support.

Tech Mentor Platform (*Top 5 Finalist - Techlathlon Hackathon, ICT Kerala at Infopark* | *Full-Stack Development*)

- Built a digital mentorship platform connecting college students with industry mentors for skill development; secured Top 5 among 100+ competing teams.
- Delivered a rapid prototype through strong team collaboration under hackathon constraints.

Banana Curvature Detection System (*Python, OpenCV, Flask*)

- Engineered a computer vision system to calculate banana curvature, perform quality ranking, and auto-generate certificates using image processing and shape analysis.

CERTIFICATIONS

- AWS Cloud Practitioner Essentials - AWS Training and Certification (Certified)
- AI Automation and Intelligent Solutions Internship - AICTE | IBM SkillsBuild (BharatCares) (Completed)
- RDBMS - PostgreSQL - Indian Institute of Technology Bombay (IIT Bombay) (97.50%)
- IBM Web Development - IBM SkillsBuild (Completed)
- Machine Learning for Data Science Projects - IBM SkillsBuild (Completed)
- Generative AI and Symbolic Reasoning - Johns Hopkins University (Coursera) (Completed)
- Introduction to Selenium - Coursera (Completed)
- AI Workplace Proficiency - SuperHuman Academy (Certified)
- Project Management - HP LIFE (Certified)
- HackerRank Problem Solving - HackerRank (Silver Badge)

ACHIEVEMENTS AND LEADERSHIP

- First Prize - TinkHerHack 4.0 Hackathon for Smart Rural Area Issue Management System (statewide competition, Kerala)
- Best College Project Award - ETLAB+ Smart Academic Advisor Platform (team project)
- Top 5 Finalist - Techlathlon Hackathon, ICT Kerala at Infopark (100+ competing teams)
- Finalist - Useless Project Finals, showcasing creative innovation and problem-solving
- 20+ Hackathons Participated - consistent competitor across national and state-level events including TinkHerHack 4.0, Techlathlon, TinkerHub Overnight, and more
- HackerRank Silver Badge - Problem Solving
- Regular attendee of technical workshops, hands-on training sessions, and community tech events
